Premium Endoscopy System Series

For Advanced Clinical Performance & Precision Operation

VET-OR1800

Support for high-end clinical diagnosis, research, complex diagnostics and precise surgery.

This series is equipped with **4K ultra-high-definition imaging** and exclusive **CBI-Plus** technology to clearly show tissue details, tiny blood vessels and hidden lesions that are difficult to detect under ordinary white light, providing clinical-grade image quality for **better visualization**, **higher diagnostic accuracy** and **more reliable clinical decisions**.

Y100-0259	FHD Camera Head Kit	FHD Camera Head, Light Guide Bundle,etc.

Trolley

Y100-0011-01	AET-L1	4 shelves Trolley w. Monitor Arm, Holder for flexible endoscope and Rigid camera head.

What is Tower system?

· Image processor with light source, air and water pump,

· Work with flexible endoscope((VET-OR1800, VET-OR1200RH,VET-OR1200HD)

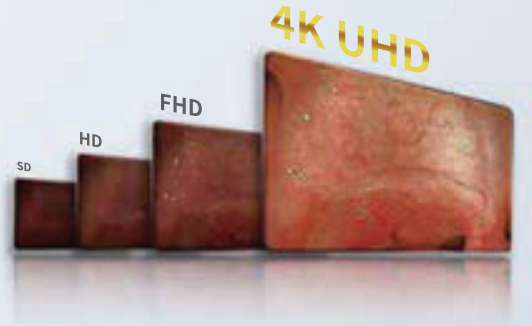
· Work with rigid endoscope (VET-OR1800,VET-OR1200RH)

· Need additional monitor and trolley

· Suitable for operating room use

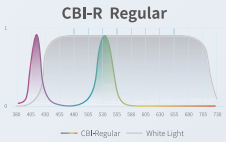
4K UHD Imaging Platform

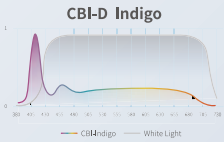
- **4K UHD Pixel Density**
  Reveals tissue at cellular-level clarity
- **Visualize Key Structures**
  Mucosal patterns, micro-vessels, lesion margins
- **Clinical Impact**
  Boosts detection & diagnostic confidence for lesions

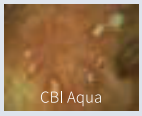


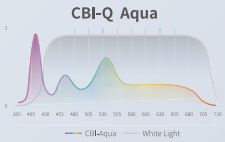
CBI-Plus Imaging with 3-LED Multi-Spectrum

- **CBI-Regular/CBI-R**
  Delineate mucosal lesions and highlight submucosal vascular structures.
- **CBI-Indigo/CBI-D**
  Increases the visual contrast of vascular textures and improves the visibility of hemoglobin, making mucosal surface vessels more prominent.
- **CBI Auqa/CBI-Q**
  Keeps the main CBI benefits, with improved algorithms that enhance normal mucosal visibility and make the color tone closer to standard white light.









Intelligent Patient and Data Management

- **DICOM Transfer**
  Enables automatic, standardized image transfer to PACS via LAN integration.
- **Patient System**
  Easily create, find, and manage patient records, keeping everything organized and easy to access.

Professional Endoscopy System Series

For Comprehensive Veterinary Practice

OR160/100

Ideal for daily diagnosis and treatment in general veterinary clinics. It perfectly balances performance, versatility and cost-effectiveness.

It provides stable **full HD imaging**, wide compatibility with **rigid**, **flexible** and **single-use endoscopes**, and integrated **patient data management** to greatly improve efficiency and workflow.
