WE ARE DOG RUNNER

Dog Runner is one of the largest manufacturers of treadmills for dogs in the world.

With so many products available to customers one might wonder why so many dog lovers choose for Dog Runner Treadmills.

The answer is simple: quality.

We always want the best for your loyal four-legged friend, which is why we make dog treadmills with the utmost care, for any size and even for rehabilitations.

Nikolas Van der Veken

We strive to overshoot all the expectations one might have when choosing for a Dog Runner Treadmill. We grew from a local family business to becoming market leader in a decade. We are big enough to service and small enough to care.

We never stopped treating our customers any different than the day we started.

It's all because we love our customers as much as you love your dog.

CEO

More than 10 years of experience and our commitment to perfection have allowed us at Dog Runner Treadmills to develop a range of products that make us the leading company in this industry worldwide.

The Dog Runner headquarters is located in Dendermonde (Belgium) in the heart of Europe. Our state of the art Headquarters offering us 4.000 square meters to work fast and efficient. All this powered by an amazing team.

The design of Dog Runner treadmills is done by our own R&D team and is based on years of experience in the field of treadmills. The perfect recipe to develop an outstanding product.

All this knowhow has given us the opportunity to bring the most complete and technically advanced treadmills on the market. All our Dog Runner products are tested to meet the highest standards. All our Dog Runner products have been certified with labels such as CE, R.O.H.S. and more.

Because of our superb quality treadmills, over the years we have been able to establish a worldwide network and we are still growing on a daily basis.

OUR NETWORK

Dog Runner Treadmills are used for both medical and behavioral therapeutic use.

We are very proud that world renowned universities such as the University of Ghent, the University of Liege and the University of Pretoria have chosen Dog Runner as their partner.

In addition to these renowned universities, there are clinics and veterinarians worldwide who use Dog Runner treadmills to give their patients the best care.

Cesar Millan, the world's most famous cynologists uses our Ortho Pro Model. Needless to say we are very proud.

Other major partners of Dog Runner are the Belgian, American and German Military Service. Knowing they rely on us makes us show that we deliver high quality products. Police Departments all over the world work with our Dog Runner Treadmills as well.

The Royal family of Dubai has been working with our Dog Runner treadmills in their facilities for many years now.

Dog Runner currently has a network of over 30 partners around the world and through our constant drive for improvement and innovation, our network continues to grow.

Our core values

- Customer Expectations
- Quality
- Reputations
- Industry standards

Always meeting our customers Expectations

We never compromise on quality. Ever. Regardless of the market we know very well that in the end decisions are never solely based on price.

It's because Dog Runner Treadmills exceed the level of expected quality that we have grown so fast in just one decade. We don't just meet our customers expectations: we go beyond!

Quality is Critical to Satisfied Customers

Quality is critical to satisfying your customers and retaining their loyalty so they continue to buy from you in the future. Quality products make an important contribution to long-term revenue and profitability. They also enable us to sell at the price points we advise.

Dog Runner Treadmills have always been offered at stable advised retail prices simply because they are worth every hard earned Dollar.

Quality is our key differentiator in a crowded market. Because our company has established a long history of delivering superior products we have been exporting our products in more than 30 countries worldwide.

Establish your hard earned reputation

Quality reflects on your company's reputation. By teaming up with Dog Runner Treadmills and with the growing importance of social media it means that customers and prospects can easily share both favorable opinions and criticism of our products quality on forums, product review sites and social networking sites, such as Facebook and Twitter. A strong reputation of quality will always remain our most important differentiator in markets that are very competitive.

Exceeding Industry Standards

Ce Labeled ✓

R.O.H.S. Labeled ✓

United Nations Global Compact Certified ✓

At Dog Runner Treadmills we check every treadmill before it leaves our warehouse.

Yes, we actually do a 100% quality check. Every treadmill has been assembled, tested before being packed and prepared for shipping. Yes, this is time consuming but it is the only way that we are 100% sure we are delivering a product that will exceed the industry's standards of today.

Each product has a handwritten note by who it was checked from our team.

We don't just go the extra mile, we'll fly to the moon if we have to!

Manage Costs Effectively

Poor quality increases costs. Thanks to our very effective quality-control system in place we have the lowest service issues you could possibly imagine.

This means putting more time into sales instead of into problem solving.

Less service issues = less after sales costs.

AQUA RUNNER

Dog Runner has built up a strong reputation in the field of treadmills for dogs. This Aqua Runner was designed and developed thanks to our years of experience with 'Canine Therapy'. Dog Runner always strives to market products of very high quality, but at an extremely competitive price.

Thanks to the easily accessible underwater treadmill, equipped with a separate entrance and exit, each dog can easily enter and exit the treadmill in a rectilinear movement. The amount of water, the water temperature and the speed of the treadmill can all be easily adjusted. The treadmill fills (and empties) in about 120 seconds. That's incredibly fast. Thanks to the external tank of no less than 897.14 liter, the water (which is purified and disinfected) can often be reused. The stainless steel frame is of high quality, just like all the other components used.

Dog Runner is proud to have been chosen as a partner by the University of Liège & Faculty of Veterinary Medicine from the Ghent University. Their reputation in the field of animal medicine is world renowned.

That they too choose a product designed and built in Belgium says a lot!

AQUA RUNNER

Technical specifications:

- Rolling surface dimensions (L x W): 140 x 48 cm
- Device dimensions (L x W x H): 176 x 80 x 100 cm
- Belt thickness: 1.8 mm
